What else?

What is at risk?

What is important about that?

What might ‘help’ look like?
What would a simpler way look like?

What’s the <worst> / <best> that could happen?

What would an experiment look like?

Which part is <confusing, surprising, annoying, etc>?
What's already working that you can build on?

What other angles can you think of?

How does it look to you?

How do you really want it to be?
What is stopping you?

If you got it, what would you have?

In the bigger scheme of things, how important is this?

In the beginning, how did you want it to be?
What is the lesson from that?

What's the worst part for you?

When is it time for action?

What is your prediction?
